SUMMARY

Detail-oriented B.Tech student specializing in Artificial Intelligence and Data Science with strong expertise in data analysis, machine learning, and statistical modeling. Proficient in Python, SQL, and data visualization tools. Experienced in building predictive models and deploying data-driven applications. Seeking a Data Analyst / AI role to leverage analytical and problem-solving skills.

WORK EXPERIENCE

Intern (Trainee) – Pallamsetti Innovation

January, 2024

- One-Week Virtual Internship | Google Cloud Platform
- Attended structured training sessions on Google Cloud Platform (GCP)

Data Science Intern – Cognifiz Technologies

March, 2025 – April, 2025

- Completed weekly hands-on tasks involving data cleaning, preprocessing, and analysis using Python.
- Performed Exploratory Data Analysis (EDA) to identify patterns and trends in datasets.
- Applied machine learning algorithms such as classification and regression models.
- Evaluated model performance using accuracy, precision, and other evaluation metrics.
- Improved problem-solving and analytical skills through project-based assignments.

EDUCATION

The Apollo University

- B.Tech in Artificial Intelligence & Data Science

CGPA: 9.18

Sri Chaitanya Junior College

- Intermediate

PROJECTS

REAL-TIME FAKE JOB DETECTION SYSTEM

- Developed an AI-based classification model achieving 98% accuracy.
- Applied SMOTE technique to address class imbalance and improve model performance.
- Implemented Random Forest algorithm for predictive modeling.
- Designed an interactive Streamlit application for real-time predictions.

CLOUD-BASED FILE STORAGE & SHARING SYSTEM

- Designed a secure cloud storage solution with authentication mechanisms.
- Implemented file upload and sharing functionalities.
- Developed a responsive user interface for enhanced usability.

SKILLS

- **Languages:** Python, Html, Css, SQL, C (Basic)
- **Data Science:** Pandas, NumPy, Data Cleaning, Data Preprocessing, Data Visualization
- **Machine Learning:** Scikit-learn, Random Forest, Model Evaluation, Predictive Modeling
- **NLP:** NLTK, Text Processing, Feature Extraction (TF-IDF)
- **Cloud & Tools:** Firebase, Streamlit, Excel, GitHub
- **Soft Skills:** Analytical Thinking, Problem Solving, Learning Agility, Communication

DECLARATION

- I hereby declare that the information provided above is true and correct to the best of my knowledge and belief.
